

Visit to the Hydrographic Office (UKHO), Taunton on Wednesday 8 October

Rosanne has secured a visit to the UK Hydrographic Office, Taunton for **Wednesday 8 October**. A few months ahead yet but we must have names and numbers asap for UKHO security checks, hence our request for passport numbers, date of birth and nationality.

"Supporting safe navigation is at the heart of what we do" is proudly displayed on the UKHO website and most people would associate this organisation with supplying the nautical charts for maritime navigation.

That of course is a summary of this organisation and very much the tip of the iceberg and as some of our membership knows who have utilised

their products, there is a vast amount of work in compiling these charts both on paper and digital options to get to the point of usage.

This is a first-class opportunity to visit a strategic UK operation whose influence stretches around the globe. We meet in the FAA Museum Car Park from 08:40 and depart at 09:00 sharp by coach. We return to the Museum Car Park at approximately 13:00. The cost is just **£15.00** per member.

Please send this completed form to Rosanne at the address below. Enclose a cheque payable to SoFFAAM or you can pay by BACs using your 'SurnameUKHO' as a reference.
